## SUMMARY

Creative Front-End Developer offering web solutions experience for diverse technological industries. Skilled in designing, developing, testing and multiple web-based applications incorporating a range of technologies. I am aspiring to strengthen my knowledge of advanced technical skills to excel as a Front-End Developer.

## SKILLS

- **Front-End Skills:** JavaScript, TypeScript, HTML 5, CSS, React JS, React Native and Angular JS.
- **Back-End Skills:** Node JS, Express JS, MySQL, MongoDB
- Responsive Web Design
- Version Control Systems: Git, GitHub
- Team Collaboration
- RESTful APIs
- Jira and Confluence
- Agile Software Development

## EXPERIENCE

### Front End Developer

04/2021 - Current

Bio Agency/Tech Mahindra *Toronto, ON*

#### Scotiabank Project

- The Scotiabank project operated on 50+ APIs, integrating JavaScript fetch API for API Integration and displaying UI.
- Constructed 50 React components for the Scotiabank Auto-Finance portal project.
- Performed unit testing for each component, applied and integrated the React testing library.
- Refactored code so that's its clean and reusable where code is repeated.
- Performed code reviews for each pull request raised for each developer on the team, to assure clean code.
- Used Bitbucket for each code repository, for developers to access each repository and be able to push and pull code.
- Presented new features each week to the Scotiabank team, to get feedback if adjustments are needed.
- Fixed code defects that were raised by QA during QA Cycle to ensure software works correctly.
- Discussed with UX team, to get better understanding of the user experience for each design in Figma.

**Tech-Stack:** React JS, Material UI, HTML 5 and Spring Boot.

### AT&T Project

- Improved AT&T homepage to increase 50% more user traffic and its webpages.
- Maintenance of code, including debugging and other problem solving of client issues.
- Collaborated with an agile 5-member team and executed end-to-end solutions for clients.
- Collaborated with Senior developer to discuss whether code needs to be refactored for code review.
- Attended meetings with AEM team about design of the website and discussed solutions on the user experience and code will be implemented.
- Looked over other developer's code to either reuse code or figure solutions to the featured that needed to be implemented.
- Pages that were worked on for AT&T were the Homepage for the Global Nav, Fiber Landing Page and Speed Test page.

**Tech-Stack:** JavaScript and Adobe Target.

### Unity Developer

12/2020 - 04/2021

X Movement *Brampton, Ontario*

- Designed and implemented scalable applications for data extraction analysis. Conducted data modeling, performance and integration testing.
- Designed and developed analytical data structures.
- Authored code fixes and enhancements for inclusion in future code releases and patches.

### EDUCATION

**Bachelor of Commerce:** Business Management  
*Ryerson University, Toronto, ON*

09/2013 - 06/2019

### CERTIFICATIONS

- AWS / Certified Cloud Practitioner
- The Complete 2020 Web Development Bootcamp from Udemy by **Dr.Angela Yu**
